

## Strawberry June Block of the Month

### Cutting:

PINK	GREEN	WHITE
17 x 2in squares 3 x 2.5in squares	2 x 2.5in squares from print A 2 x 2.5in squares from print B 2 x 2in squares from print C	4 x 2in squares 5 x 2.5in squares

**Assembly:**

Our first job is to turn the 2.5 in squares into half square triangles (HST). Take the 5 white 2.5 in squares and one of the Green Print A 2.5 in squares and draw a diagonal line across each square from one corner to the opposite one.

Pair the marked squares with the unmarked ones. NOTE: the marked Green Print A square should be paired with a Green Print B square.

Sew the squares together a scant quarter inch from your guide line. When you reach the end turn the square around and sew a scant quarter inch from the guideline on the other side.

You should have two seam lines each a scant quarter inch from the guide line.

Cut along the guide line, dividing your square into two triangles each with a seam.

Press. I like to press my seams open as it keeps everything lying flat and keeps the seams from getting too bulky, but you can do what you are comfortable with.

It's likely that your HST will be a little large so trim them down to 2 in square. Line up the 45 degree line on your ruler with the diagonal line of the HST and trim two of the edges.

Rotate the HST 180 degrees making sure to line up the already trimmed edges with the 2 inch line on the ruler. Trim the remaining two edges.

You should end up with 12 HST.

Arrange all 2 in squares and HST as shown in the picture below.

Assemble the block using a quarter inch seam. First sew the squares into rows and press the seams.

Then sew the rows together matching the seams in each row to create the final block. Press seams.

Add 1 inch sashing to the top and bottom and 3-inch sashing to the sides. Trim block to 12X12
